

Network Participating Laboratories

On Nov. 1, 2015, BlueCross BlueShield of South Carolina and BlueChoice HealthPlan began using Avalon Healthcare Solutions to administer a comprehensive suite of laboratory benefit management services to promote patient access to affordable, high-quality health care. Avalon is an independent company that provides benefits management services on behalf of BlueCross and BlueChoice®.

To ensure the lowest cost to your patients, be sure to use in-network laboratories and remember to always check for prior authorization requirements for genetic testing, cytogenetic testing, and other molecular pathology codes. BlueCross and BlueChoice expect all participating providers to use in-network laboratory resources whenever possible.

Here is the current list of participating BlueCross, BlueChoice, and Avalon laboratories as of **June 1, 2021**:

APPROVED LABORATORIES	AFFILIATION	SPECIALTY
Aegis Sciences Corporation		Toxicology
